Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	
Comments:	Looking at the plans submitted I'm concerned that the north East corner of the office building is too close to the boundary. I believe that any building should be at last half a meter from the boundary/fence line. On the plans it looks as if it touching the boundary. If this is correct is it possible to make sure it is

corrected before any permission is granted.
I'm a resident not a business, and I will be using my driveway daily
so the distance of the building to my driveway is important.

Kind regards
