Dear sir/madam,

I am writing to voice my concern regarding the above referenced planning application, proposed installation of 17.5m monopoly supporting 6 no. antennas, 2no.300mm transmission dishes 3no. equipment cabinets and ancillary development thereto including 3no. Remote radio heads.

The proposed installation is completely inappropriate for a residential area with numerous families living in very close proximity. It is also situated at a crossing point for children attending Birchwood Grove School and Woodlands Meed school as well as those accessing Holt Park. The pavement is already narrow in between the grass verges and will restrict pedestrian access. We have very few crossing areas and the proposed site of this mast is right by one of the main crossing points used by families to get their children safely to and from local schools. I would also like to point out that we have a new residential home for the elderly just along the road from this site and interference with medical equipment being used in the home is a huge worry. The height of the mast is double the size of the existing trees and will be visible for everyone living on the Burdocks Drive Estate, The Warren Estate and beyond. This is completely unacceptable in such a contained residential area and will be an obtrusive eyesore. The emissions from this installation are extremely worrying for everyone living in the area and the noise from the cabinets is not acceptable. The siting is extremely close to residents gardens and will be a deterrent to spending time being outside. The siting appearance is completely out of character with the current grass verge with flowering daffodils which is always well kept and a pleasing and welcoming sight to our neighbourhood.

We already have excellent connectivity in our area and the minor improvements promised do not outweigh the harm caused by this proposed structure. I urge you to find alternative locations such as our numerous industrial estates rather than a busy residential area populated by families.

Yours faithfully
