Proposal *Internal alterations and reconfiguration works, insertion of 3no. new roof windows, insertion of new French doors to replace existing window opening, reinstatement of original window configuration to front facade, reinstatement of chimney to front roof slope and other related minor amendments throughout.*

Our Society has been in existence for over 60 years and aims to protect and conserve the natural and built environment of our village and surrounding area.

This property is an important Heritage asset in the Conservation area of our village and we are delighted that so much care and thought has been given to the proposed refurbishment/renewal of " No 8" The façade makes an important contribution to the street scene on that part of Cuckfield Rd. and the internal changes appear largely uncontentious.

The application is well supported by specialist reports including the archaeological interpretive study and we note it is proposed that the work will be carried out by certified listed building contractors.

We strongly support this application therefore, which we trust will be approved with the minimum number of strictures given the quality of this proposal.
