Ref: DM/23/2867

16.12.2024

For and on behalf of the Mid Sussex Area Bridleways Group (MSABG).

Dear Sir/Madam,

We would like to object to the addition information received on 8th November 2024, as we still believe that the proposed changes have not adhered to the recommendations of the District Plan and the Government's initiative that "all new developments should be accessible to all".

Not only have the developers not considered equestrian use in the early planning stage of this section, and still haven't, but the two development sites (DM/23/2866 & DM/23/2807) which are proposed to be connected, do not support safe connectivity for equestrians at all.

Horse riding and driving have considerable health benefits and horse riders should not be prevented from enjoying open air exercise and recreation by the failure to produce safe, inclusive and connective routes.

Yours faithfully,
