

TYPE OF APPLICATION: TPO

OUR WORKS REFERENCE: 419501

ADDRESS/LOCATION OF WORKS: Stonepound Crossing, Keymer Road, Hassocks, BN6 8JW

W3W: moods.swaps.sharpened

DESCRIPTION OF WORKS:

Our company (Traffic Control 123 Ltd) work on behalf of Enerveo, cleaning necessary street lights and signs of trees/foliage, so as to allow access for maintenance/repair, as well as to maintain public safety.

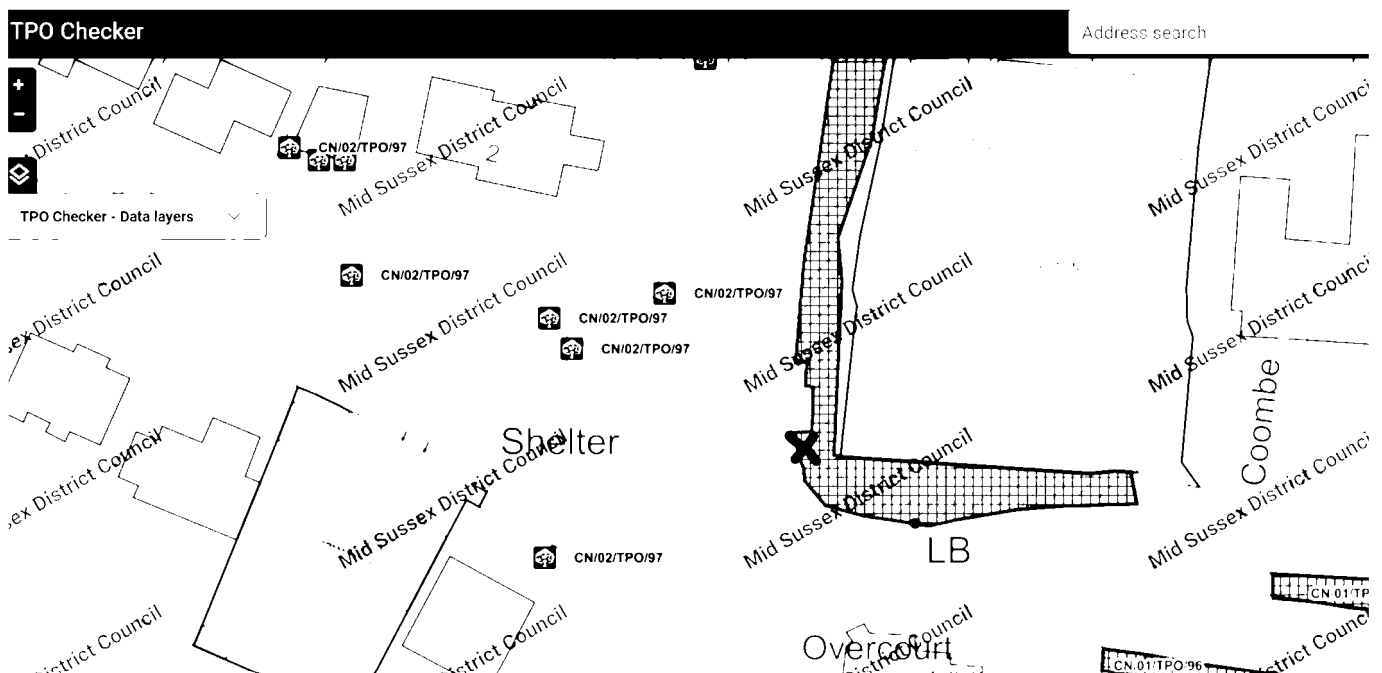

We have been instructed to clear the street column number 63, located on corner of junction Keymer Road and London Road.

We need to trim the trees surrounding the column, at a 60 degree angle from the light head itself, so that light is able to reach the road below and maintain public safety. We will also need to clear the lighting head by 1m.

I have provided the following details along with site photos taken to highlight the works that are required.

I can see from the council map, that the tree we are required to cut, is affected by a TPO. I am therefore applying for permission to cut a small portion of the branches on these trees.

TPO NUMBERS (IF KNOWN): HA/03/TPO/05

Tree species affected:

Common Hawthorn

Common Oak

Sycamore

Cutting area highlighted below in [REDACTED]:
