Hi Andrew,

As discussed, I recommend that a condition be applied to any permission granted to ensure that plant is installed in accordance with the report from DAA Group dated 28 August 2025.

It should be noted that although the report states that the plant will not be operational during the night, this may not be the case. I would therefore also recommend that an informative be included to ensure the applicant is aware of their obligation not to cause a statutory noise nuisance.

Kind regards,
