If you know which TPO protects the tree (s), enter its title or number	WP/01/TPO/76 - T20
Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	The Identification of the tree is T20 within the WP/01/TPO/76 document and also as identified in Drg No T.P.O-WP.1.76 (Blank Revision) Irene Fletcher who carried out the original visit and been in communication with from Earlier this year and advised to have a specialist company review the health of the tree, the works on the tree based on the advice of my specialist tree consultant and on the evidence from the sonic Tamography is to remove the tree as soon as possible. The tree sows a very high degree of decay. Due to the safety to my family, the neighbours and adjacent properties, I would like the approval to remove the tree as soon as possible, also based on the fact that my insurance company are not guarantying any payout in the event of the tree falling down in the time between now until the tree is felled. This based on, that i have been proactive in raising the concern with the tree, this notification has gone against me? Your assistance in speeding the process up would be very much appreciated.
