Subject: DM/25/3128 -8 The Crescent, Hassocks

Dear Andy,

I have reviewed the AIA and associated documents for this retrospective application and whilst it is regrettable that this work has already been completed, the harm to the trees, if any, has already occurred. Removal of the fence would possibly cause more damage. I note from the AIA that impermeable membrane was used to prevent leaching of concrete into the surrounding soils. This is a positive and only time will tell what damage has occurred to the trees.

Kind regards

Emma
