To whom it may concern

I am writing with regards to my neighbour Lucy Stagg who is applying for full business planning permission for her fitness studio in her garden.

There have never been any issues with noise from the studio (it is well contained and positioned right at the end of the garden). She has always been very considerate to ensure that we are not disturbed in any way during classes.

The studio has been built to a high standard and she maintains it well. It fits in with the surrounding area and doesn't look out of place.

Also, there have never been any issues with clients' parking.

I hope you will take our views into account when considering her application.

Kind regards
