Subject: DM/25/2437 Bife

Hi Andy,

To comment on this application, I need further information regarding the proposed odour control system and noise mitigation measures.

The invoice provided states that silencers will be fitted, but to ensure that condition 6 will be complied with I need to see evidence of the acoustic survey carried out.

The invoice details the risk assessment for odour on this site and suggests odour mitigation in the form of carbon filters, but I need further details of the proposed scheme before I can make a judgment on its suitability given the type of cooking here.

Please will you request this information from the applicant.

Thanks,

Jane Cooper
