Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Dear Planning Officer I am pleased to support planning application DM/25/0090 for the proposed equestrian facilities at Eastwood Farm. As someone who has worked in the equestrian industry for many years, I know how important it is for riders to have access to the right facilities to

help them reach their full potential.

I have known Luca Cullum Cina for some time and have seen firsthand his dedication and natural ability as a rider. To continue progressing in the sport, he needs a professional training base that will allow him to develop his horses correctly and train at a consistently high level. Having these facilities at home will give him the best chance to move up the levels in a structured and well-managed way.

The proposed development is a brilliant use of the land, which has remained unused for some time. This will transform it into a purpose-built facility that not only supports a talented young rider but also ensures the land is maintained and utilised in the best possible way. The design is well thought out and in keeping with the surroundings, ensuring it sits naturally within its setting while providing a top-quality equestrian environment.

This is a well-planned and much-needed development, and I fully support the application. I hope it is given the approval it deserves.
Annie Platt

Kind regards
