

Condition 3 - The materials details in respect of the windows and brickwork. Are to match those used in the main house at Greentree Hall as this Folly is wholly based on that design. The bricks are Weinberger Hailsham mixed stocks to match the house. The windows are double glazed timber units from the same manufacturer as the house " Bereco. The stonework is reconstituted stone from Acanthus Stone in Derbyshire as provided for the main house. We are proposing to use leadwork on the roof of the cupola.
