Mr M J Hill Clovelly Brighton Road WARNINGLID West Sussex RH17 5SY					
Dear Sir					
<u>Siting of a Caravans : Land at Danworth Lane HURSTPIERPOINT West Sussex</u>					
I refer to recent correspondence, and your telephone conversation with my Principal Planning Officer, Peter Rainier, and have taken note of your comments in respect of the stationing of caravans on the land at Danworth Lane.					
I accept that one caravan has been on the land for a long period of time and that this Authority is estopped from taking action to remove it from site. This caravan you have identified as being that closest to the stables, that is the westernmost of the two caravans. This caravan has been used, very occasionally, for overnight accommodation for no more than fifteen days each year. Should this caravan be used for overnight accommodation for more than the specified fifteen days, this Authority will consider formal enforcement action to resolve the matter.					
With regard to the second caravan, I can also accept your argument that there is a need to retain this caravan as being ancillary to the use of the stables. I would also advise you that this Authority would not accept the use of this caravan for overnight accommodation.					
I look forward to your co-operation, but, should you have any enquiry in this matter, please contact my Investigations Officer, Adrian Palmer, on extension 7357.					
Yours faithfully					
					
for Chief Planning Officer
