

Email 3 (final):

Including:

- Amended floor plans for the taller block showing the new proposed windows
- Amended lower level floor plans for blocks A1 and A2.

In my earlier email I should have clarified that we have looked at the Church Walk link element, the previous plans weren't correct so this has now been rectified and to clarify, the existing situation is going to be retained where there is an opening to allow residents of the flats above the units on Church Walk to access via this route, so we are proposing a gate here between the two buildings that will have controlled access for these residents who can then use the staircase to get up to the first floor level and the existing rear terraces.

You'll also note here that we've clarified the canopy along this stretch of units.

Thanks

Michael
