Dear Mr Evans

I am writing in connection with the planning application for the 5G Mast planned for Rocky Lane.
I completely object to this because not only does it seem totally unnecessary, but also it would affect wildlife and pollinators such as bees, in the area, as well as it's spoiling the outlook on the countryside.
Anyone that I've spoken to in this area has an exceptionally good phone signal already, so what on earth would the benefits be of having a new mast put up? NONE!!

I hope that my objection is recognised.

Your sincerely
