Attention Stefan Galyas

Our Society has been in existence for over 60 years and aims to protect and conserve the natural and built environment of our village and surrounding area.

We object to this application which appears to be overdevelopment closing the gap between properties in College Lane which contribute to its semi- rural character.

If approved the proposal would very much detract from the amenity of the property to the north by reduction of light and to a lesser degree the house to the south.

Further the proposal would appear to conflict with various elements of the Mid Sussex Design Guide.

We would hope that by making suitable adjustments a satisfactory proposal might emerge,as the existing property has much scope for enhancement and improvement. A process which has already commenced.
