Commenter Type: Neighbour or general public

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I am writing to express my full support for the planning application to extend and improve Park Centre in Burgess Hill.

The Centre has been closed since 2021 and is now being brought back into use as a much-needed youth and community facility. The proposed extensions are an essential part of this work,

enabling the building to be modernised, made fully accessible, and fit for purpose for years to come.

Of particular importance are the plans to install a lift to the first floor and a fully compliant Changing Places toilet with level access. These features will ensure that people with disabilities, mobility challenges, or complex needs can access and use the Centre with dignity and independence. This commitment to inclusion is vital for ensuring the building can serve the whole community.

The extensions will also create more flexible spaces, supporting a wider range of local groups, services, and activities. Once reopened, Park Centre will be a welcoming, accessible, and safe space that promotes social connection, wellbeing, and opportunity for people of all ages.

I strongly support this application and urge Mid Sussex District Council to approve the plans so that Park Centre can once again be a thriving community hub at the heart of Burgess Hill.

Kind regards
