**Reasons for comment:**

**Comments:** I understand that The Park Centre will be, and should be, a valuable community resource; modernisation, including access for everyone, will be essential. However, whilst the revised plans will have less of an overbearing impact than previous plans on buildings and gardens on the western side of the Park Centre, I am still concerned about the

scale of these proposed extensions; it seems that the eastern side of the property will now be particularly impacted as well as the western side.

As far as the western side is concerned, the lack of privacy, potential security risks and increased noise pollution are real concerns to the residents who live next to this property.

Overdevelopment of the site and insufficient parking provision are factors which will also affect the general area surrounding the Park Centre.

I would urge the Council and planners to reconsider the scale of this development and, if possible, keep within the overall area of the existing building.
