

Dear Steven,

Council continue to lodge their objection to this development as noted in our previous correspondence. It is in the setting of the national landscape, there are safety issues with people walking to and from the development as there is no footpath, therefore access is unsafe, the development lacks infrastructure and sustainable transport methods for walkers and cyclists, it will cause significant disruption to replace a 6-year-old roundabout with a new one the 6m height increase means it will overlook people's houses and gardens. The allocated plan was for only 60 houses not 117.

Kind regards

Sarah Abellan

Clerk to Ansty and Staplefield Parish Council
