RECOMMENDATION:	Advice

WSCC Highways have previously commented on this application. It's noted that additional information has been provided and plans updated.

For the purposes of the current consultation, it's recognised that the proposal remains as previously described. WSCC Highways would raise no particular issues with the overall principle of what's intended. It would be helpful though for the Applicant to provide a point-by-point response to the matters raised by WSCC. Based on the additional information presented, it would appear that WSCC Highways previously raised points remain unaddressed.
