Application ref: DM/25/2862
Date: 28 November 2025

ARCHAEOLOGICAL ADVICE

RE: Land East Of Keymer Road And South Of Folders Lane, Burgess Hill

The application is for the Part discharge of condition 12 (ii) (iii) (iv) and (v) Archaeological Trial Trenching and Evaluation in relation to DM/22/3049.

The submitted Geophysical and Archaeological reports suitably detail the results of the required schemes of archaeological work. No significant archaeological remains were encountered in the trenching or uncovered by the survey. Accordingly, I can recommend the full discharge of all parts of Condition 12. No further archaeological work is required in relation to this application.
