Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	We and other members of the community do not believe that the town should encroach on the green belt any more than has already taken place (particularly when Victoria Business Park has capacity). Whilst the original application was approved (despite objections), the conditions attached to it were designed to help minimise the impact. The fears of the local community that the original

application would be the "thin end of the wedge" are being realised by this request to vary this condition. We would urge you to reject the proposed variation.

Kind regards
