

Ref; attached planning application to construct a veranda .

Dear Planning Officer,

Please find enclosed my planning application. Included in this application are 2 drawings produced by Clive Voller Associates which were used to gain approval for extension works completed in 2005 – I have included them in order to give you a true representation of my house as it stands today (the only difference is that the window which is shown on the eastern elevation of bedroom one was removed during the build). These drawings are tendered with the full permission of Clive Voller Associates. I have redrawn the Front and East elevation as the original drawings have included 'shading' which makes the view of the proposed veranda more difficult to clearly see.

I hope you now have all the necessary information in order to determine this application.

Yours respectfully,
