Subject: DM/26/0844 - Bridgers Farm, Langton Lane, Hurstpierpoint

Dear Robert,

I refer to the above application currently under consideration. Please accept my apologies for the delay in providing a response to you.

I have now received the comments from the Councils Drainage Engineer in respect of the details submitted. In this they state:

'It is acknowledged that the Flood Risk and Drainage Team's query from application DM/24/2548 regarding the site's discharge location has now been addressed.

A foul water maintenance and management plan, that identifies the responsible parties for the lifetime of the development, needs to be supplied for the shared system.'

I would therefore be grateful if a foul water maintenance and management plan addressing the above is submitted for consideration.

I would also be grateful if you could agree to an extension of time to the determination of the condition to allow the requested information to be submitted and full and fair consideration of this. I would be grateful in the first instance if an EoT until the 31st July.

I look forward to hearing from you in respect of the above.

Kind regards

Joanne
