Reasons for comment:	
Comments:	It baffles me that these applications continue, not only are our green spaces being abolished, our infrastructure cannot cope. Where is the provision of services - doctors, dentists, schools - a developer should not be allowed to profiteer from simply building houses whilst neglecting the collateral impact. Water shortages

are also an unresolved issue too. The roundabout proposal is a joke, not least because the existing one hasn't long been built and we all had to endure the road closures on a key link into town, but the size of it is ridiculous. When will our council start to protect the residents who already live here and are suffering at the exponential population growth driven by excessive house building with no investment into supporting infrastructure.

Kind regards
