Subject: Re: The Old Brick Field Farm Lodgelands - further information required

Good afternoon Andrew,

Please see below images of stables we would like two convert into a warm dry area for the children, we do not intend to change anything structurally, our plans would be just to make it safe for the children to be in, a small seating area for when the weather is either very wet or cold.

We plan to spend most of our time outdoors as this is the of a forest school but I think it would really benefit from a dry warm area, we have viewed other forest schools for our son prior to wanting to try and create our own and it has been the case that they have large lean tos with log burners in.

Kind regards
