Re: DM/24/2288

To whom it may concern,

We live in Park Road, Burgess Hill and would like to show our support for the above planning application.

Burgess Hill desperately needs more community spaces and it makes perfect sense to reuse an established building such as Park Centre, which is in a good central area. It has already had many improvements and renovation projects over the past months and hopefully they will be able to continue with the project, with the above application approval.

Kind regards

[REDACTED]
46 Park Road
