Stefan,

We have completed as much as possible with this water application. Forms completed. The next step would be paying for it. South East water have advised us this is usually done once planning has been granted, so we will continue the process when we are at that stage.

See email stream below. Hope this will suffice.

Good Morning,

Thanks for chatting with us today.

To get your new connection application started, please fill out the online form here: <https://www.developers.southeastwater.co.uk/application-form-portal?form=household-supply>.

Just fill out the application as best you can, and we'll review it and let you know if we need anything else.

Also, just a reminder, due to GDPR, we can only discuss the application with the applicant/company. If you need us to talk to someone else, we'll need written authorization.

Got questions? Our FAQs might help: <https://www.developers.southeastwater.co.uk/help/faqs>. If not, call us on 0333 000 0060 or email developer.services@southeastwater.co.uk.

You can also track your application here: <https://www.developers.southeastwater.co.uk/trackMyApp/>.

Kind Regards,

Laura

Developer Services Team

Regards,

Malcolm
