Subject: Planning application DM/26/1762 - 45 Priory Way, Haywards Heath.

To the Planning Officer...

We live at 23 Priory Way, Haywards Heath RH16 3LS and so the rear of our property backs directly on to the garden space of 45 Priory Way (the property in the planning application).

After looking at the proposed extension the ground floor extension and where it sits within the grounds of 45 Prior Way causes us no issues.

However in the proposed plan the Master Bedroom on the upper floor suggests that there will be two windows (one facing roughly NNW and the other due North).

The back of 23 Priory Way and indeed our semi detached neighbours at 21 & 25 Priory Way both have due South facing gardens with bedrooms and family bathrooms at the rear.

The North facing bedroom window on the extension plan for 45 Priory Way faces directly on to the back of our property and into our bedrooms and family bathrooms,

I feel this may be construed as an intrusion on our privacy.

Could the North facing window be frosted so as to let the light in but not intrude on our privacy.

Another factor which may not show up on the extension plans is that the contours of the land mean that 45 Priory Way is approximately 10 to 12 feet higher than 23, 25 and 21 Priory Way.

Therefore the proposed extension height PLUS the 10 to 12 feet would mean that the window causing the concern would be much higher than our 2nd level Bedrooms and our Family Bathrooms.

Please keep us advised of any comments made following our raised concerns.

I hope that we can find an amicable solution to keep all parties happy but I hope that our privacy is respected.

Mike Robertson
