Caroline,

Sorry, as I should also have mentioned that the circular window (drawing-203A) is now omitted from the proposal.

Kind Regards

Subject: Re: DM/25/3228 & DM/25/3229: Wykehurst House - atrium

Good morning Caroline,

Please find attached our latest drawing amendments for the 'atrium' application.

We have followed the proposed, limited amendments suggested below, and also made a small amendment to the stair location. We have moved the stair back in the space a little, towards the west, which allows more light onto the primary flight and, on Section A-A the right hand original opening is no longer obscured by the upper flight.

The ceiling is reinstated in the second floor lounge and we have provided a new drawing with greater detail for the fireplaces. Our rationale is that the original rooms, served by these fires, are believed to have been for guests. Further, that it is likely that each room would have been equal in status and therefore internal decoration and fittings would have been similar. Now that the room has been consented to remain as one open space, these fireplaces will now also be observed within the same room.

For these reasons we have suggested a fireplace surround with matching features, but adapted to suit and retain the existing fireplace openings behind. This approach creates a consistent aesthetic, whilst preserving the original fireplace proportions.

Kind Regards
