Subject: Cmment on planning application DM/26/0073

[REDACTED]
Hello,

As your website is not working we are writing to you instead to comment on planning application DM/26/0073 for the erection of 42 dwellings on land off West Hoathly Road, East Grinstead.

We, as neighbours, strongly object to this proposal which we believe is unacceptable for the following reasons:

1. The local infrastructure cannot support this development.
2. This is a dangerous road where there have already been serious accidents
3. Water supply is already an issue in this area.
4. This is AONB land which is already at risk environmentally.

To add to these existing challenges shows a lack of concern for the neighbouring residents and the rural nature of the area.
