You don't often get email from daniel.parker1@aecom.com. [Learn why this is important](#)
Hi Stephen,

As requested, please see attached editable document in WORD and updated PDF document.

Please also note my responses to your comments:

Items responses should include an agree/disagree (predominantly the 2nd half of the responses) - [this is stated in the third column "Design Organisation Response" of Table 4](#)
Information based on the comments raised previously needs providing (The questions posed in the comments feature don't appear to have been addressed) - [myself and Nathan are unsure what is required and would ask if these can be addressed at during the Stage 2 Road Safety Audit.](#)

then I can complete the WSCC comments based on your additional information.

The document would also need a Table F.5 and Table F.6 (Design Organisation and Overseeing statement) included at the end. - Tables 5 and 6 - [both tables 5 and 6 have been added to the document and can be found on the last page.](#)

I hope this attached documents are acceptable and I look forward to your response.

Please note I am on annual leave tomorrow but can be available for a call on Monday if required.

Kind regards

EXTERNAL

Hi Stephen,

See attached. We had updated the original RSA however for some reason this was not circulated prior to the CS documentation being resubmitted. My apologies.

Any questions, please contact either myself or Daniel (CC'd).

Nathan,

Im currently looking at the resubmitted information on the central section, The additional information includes a revised RSA and Designers Response however no further information is included on the original DR which should be updated to address previous commentary and any items that have been superseded within the new one.

Are you able to advise if this has been or undertake it please.

Regards

Stephen

Subject: Central Section Designers Response

Nathan,

Ive finally got comments back from others to complete my initial comments on this (some are comments requiring further information and others responses allowing the agreed action to be completed)

If you are also able to state agree/disagree with all of the recommendations that will set out which elements I will need to seek further sign off upon.

Stephen
