Dear Katherine,

Strange wording on their response, stating having reviewed the further submitted information they have no objection to the means of surface water discharge, but still request conditions.

However, Yes I agree to the Condition and your request for the extension of time until 12th October as requested.

Kind Regards,

Les

L. A. Humphrey. FASI, MRICS, FCIQB.

Dear Les,

Following your previous email I have received the attached comments from the Flood Risk and Drainage Team, who still require the pre-commencement condition. Given this can you confirm that this condition is acceptable.

I would also like to request an extension of time to 12 October to allow the application to be determined in time following Committee this Thursday, please let me know if this is acceptable.

Kind Regards

Katherine Williams BSc (Hons) MSc

Dear Katherine,

Generally acceptable Conditions, apart from item 2 relevant to drainage details. Surface water proposals have already been designed by Consultants and submitted relevant to the disposal of rainwater and surface water, and that the foul sewer, with a modest discharge will be taken to the main foul sewer in Hophurst Lane.

Therefore is there really any need for that to be included.

Happy to accept the other suggested Conditions.

Kind Regards,

Les

Subject: RE: DM/25/3155 - The Havens Sportsfield Car Park, The Haven Centre, Hophurst Lane, Crawley Down

Dear Les,

Following my previous email I would like to request the following pre-commencement conditions:

- No development shall commence unless and until there has been submitted to and approved in writing by the Local Planning Authority full details of both hard and soft landscaping, which shall include indications of all existing trees and hedgerows on the land, and details of those to be retained, together with measures for their protection in the course of development, plus details of replacement tree planting (size, species, maintenance and aftercare (planting, support and feeding)), and these works shall be carried out as approved. The works shall be carried out prior to the occupation of any part of the development

or in accordance with the programme agreed with the Local Planning Authority. Any trees or plants which, within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of similar size and species unless the Local Planning Authority gives written consent to any variation.

Reason: In the interests of visual amenity and of the environment of the development and to accord with Policies DP26 and DP37 of the Mid Sussex District Plan, and policies DP3 and N2 of the NPPF.

- The development hereby permitted shall not commence unless and until details of the proposed foul and surface water drainage and means of disposal have been submitted to and approved in writing by the Local Planning Authority. The building shall not be occupied until all the approved drainage works have been carried out in accordance with the agreed details.

Reason: To ensure that the proposal is satisfactorily drained and to accord with the NPPF requirements and Policy DP41 of the Mid Sussex District Plan and Policy CDNP06 of the Crawley Down Neighbourhood Plan, and policies CC3 and F8 of the NPPF.

- No development shall take place until details of the existing and proposed site levels have been submitted to and approved in writing by the Local Planning Authority. The development shall only be carried out in accordance with the approved details.

Reason: For the avoidance of doubt and to ensure that the development does not prejudice the amenities of adjacent residents or the appearance of the locality and to accord with Policy DP26 of the Mid Sussex District Plan and policy DP3 of the NPPF.

- Prior to the commencement of the development a Construction Management Plan (CMP) shall be submitted to and approved in writing by the Local Planning Authority. The Construction Management Plan shall include amongst other matters details of:

- o measures to control noise affecting nearby residents (in accordance with BS5228:2014 Code of practice for noise and vibration control on construction and open sites - with particular regard to the noisiest activities, typically piling, earthmoving, concreting, vibrational rollers and concrete breaking);

- o dust management plan.

- o site contact details in case of complaints.

The construction works shall thereafter be carried out at all times in accordance with the approved Construction Management Plan, unless any variations are otherwise first submitted to and approved in writing by the Local Planning Authority.

Reason: To protect the amenity of local residents from noise and dust emissions during construction and to accord with Policies DP26 and DP29 of the Mid Sussex District Plan and policies L2 and P3 of the NPPF.

Please let me know if these are acceptable.

Dear Les,

Thank you for your email and my apologies for the delay in my response.

I have been awaiting comments from the Council's Ecologist following the submission of the amended information. These comments have now been received, however were not received until after the deadline for the September committee. Therefore, unfortunately the application will not be able to be considered until the October committee.

My apologies for this delay.

Dear Katherine,

I gather from the Chairman of the Trustees that the Crawley Down Village Hall is not on the meeting of the 10th September

When your back from leave, I gather the 7th next week

Could you kindly let me know what is the hold-up.

Do you need any further clarification.

Not that is caused an issue on the 2-previous applications I attach a pdf with tree T2 removed.

Hope that might clarify that situation.

I'm getting grief from the Trustees, so you help would be appreciate

Kid regard,

Les

Dear Katherine,

Further to pervious email correspondence I've managed to get the Ecologist to review his report and upon further investigation reference tree T2 into the report.

I trust this will enable your ecologists to review the report and agree the scheme, thus enabling the application to reported to the next Full Planning Committee meeting.

Kind Regards,

Les

Dear Les,

Thank you for your email.

The submitted tree report states under points 6.1.2 and 7.1.1 that tree T2 will be required to removal as part of the proposal. This is also shown on the Tree Constraint Plan and clear that T2 could not be retained as part of the application.

Therefore, from the information submitted with the application the Ecologist's comments are correct, and further information is still required.

Dear Katherine,

Tree T2 is not for removal and I question why information has been requested for that tree, if they consider that essential what about other trees in close proximity.

Could you kindly ascertain why they have requested that information, of course I can get the ecologist to check that tree out for the possibility of bats, but of course another visit for the ecologist and further expense.

If that is essential can we make certain they do not come back asking for other trees that are being retained.

Kind Regards,

Les
