Subject: Application DM/26/1560

[REDACTED]

I write to strongly object to planning application DM/26/1560 - erection of 5 dwellings and outbuildings

My main objection is the increase in traffic into The Street which is a narrow road with very few pavements opposite the village hall where traffic comes and goes.

This proposal would also be a burden on the infrastructure and close to a development of 200 houses already approved.

I would also like to point out that we have a power cut as I type which has become more and more frequent, also water supply issues.

I reiterate that I strongly object to this proposal.
