Dear Katherine,

Re: Objection to Planning Application [MD/25/0805] – [15 Honeysuckle Drive, Lindfield, Haywards Heath, West Sussex]

I am writing to formally object to the proposed extension at 15 Honeysuckle Drive as detailed in planning application, MD/25/0805 which I understand is currently under consideration.

I have concerns regarding the negative impact this development will have on our local area, development and quality of life.

1. Overdevelopment of the Site:

The proposed extension represents an overdevelopment of the site, resulting in an excessive scale and massing that is not in keeping with the character of the area. It would significantly reduce the open space around the property, contributing to a sense of overcrowding and disrupting the balance of our residential road.

2. Noise and Disturbance:

The construction process and the intended use of the extension will likely lead to a considerable increase in noise levels. Given the proximity of our properties, I am particularly concerned about the impact on our peace and privacy, especially during evenings and weekends when we expect a quiet residential environment.

3. Impact on Drainage:

The increased building footprint reduces permeable ground area and may negatively impact existing drainage systems. This could increase surface water runoff and the risk of localised flooding, particularly during periods of heavy rainfall, which is a growing concern in our area, something that has happened previously.

For these reasons, I respectfully urge the planning authority to refuse the scale of this application.

Thanks
