Tree Preservation Order Works Proposal

Site Address: 1 Spring Gardens

Local Authority: Mid Sussex district council

Application for beech tree to be removed at 1 Spring Gardens Copthorne.

The tree in this application has been asked to be removed by my client. The tree itself has poor included unions as the base, and heavy end weighting on these boughs, which heavily lean towards; my clients property, neighboring property and a public footpath. One of the buttress roots is also beginning to die off. I have included photos of these.
