Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	1. loss of daylight/sunlight: morning sun comes into our kitchen and living room for a short time each early morning. The proposed extension will directly block this light into two much used rooms and will also block much indirect ambient light from reaching these rooms during the whole day, thus making them much darker permanently. 2. loss of outlook or overshadowing:

a large wooden wall approximately 8 metres from our kitchen and living room windows will directly block our outlook and will overshadow this part of our house.

3. the character and appearance of the proposed extension - a vertically boarded wall - do not fit the Turner style house and are not of sufficiently high quality to merit an exception to the general architecture of the neighbourhood

Kind regards
