Customer Details

Address: 91 Hazel Way, Crawley Down

Comments Details

Commenter Type: Neighbour or general public

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: I would like to object to This Planning application due to the following points.

Entrance to the site by Vicarage Road Junction is dangerous and

there are often accidents on this stretch of road.

Roads are already very congested and trying to go anywhere is a nightmare due to no road improvements.

Drs full to bursting point as are schools.

Total lack of Infrastructure, amenities and support systems.

Mental Wellbeing being eroded by the constant building in this area, with the loss of green space and nature that all local residents appreciate and require.

Local fields being built on, once this has gone , there will be no way back. The local wildlife is suffering as their homes are being taken away from them at a rate of Knots.

The building on this field will cause flooding further down hill which has been getting worse and worse over the last couple of years . Wallage lane is often flooded and over the last couple of years has become dangerous with the amount of water sitting on it.

Over the last couple of years while more and more building has been happing , the local residents between the M23 , Crawley, Crawley Down and East Grinstead have seen Water Shortages , Numerous Power Cuts and extremely congested roads .

While people realise that homes are required, should it be at the detriment of the residents that already live in the area? Its time that the infrastructure was improved before more house building goes ahead.

Regards

Kind regards
