Statement by [REDACTED]

I am [REDACTED] and I was born in 1962 at Home Farm and grew up at Home Farm before I left in 1980.

During my time at Home Farm, I can confirm that the 3 rooms and coal shed (as noted on the red line plan) were built and used in association with the house prior to the swimming pool being installed in 1970.

The pool house was built at the same time as when the swimming pool was installed.

I remember playing snooker in the Games Room throughout my childhood (1970 to 1980). The Games Room was the centre of many social events in my teenage years. The snooker table is still there.

My Dad has his office in the room noted as 'former bedroom'

The Studio room (which I knew as the swimming pool room) was used for parties, social events, table tennis and mum's keep fit classes during this time.
