Statement by [REDACTED]

I am [REDACTED] and I was born in 1965 at Home Farm and grew up at Home Farm before I left in 1983.

During my time at Home Farm, I can confirm that the 3 rooms and coal shed (as noted on the red line plan) were built and used in association with the house prior to the swimming pool being installed in 1970.

The room referred to as 'Former Bedroom' was used by my elder brother [REDACTED] when I was at prep school. It was later converted into an office for my father.

The pool house was built at the same time as when the swimming pool was installed.

I can recall enjoying using the snooker table in the Games Room throughout my childhood (1970 to 1983)
