

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

Retention of the existing trees and all boundary hedgerow on-site. Provided extensive new shrub, tree and hedgerow planting as well as creating areas of grassland, that will be managed to achieve 'moderate' condition, resulting in an 13.40% BNG increase of Habitat Units.
