Design & Sales Statement.

Project: - Proposed extension to garden shed
at Rosemond Cottage, Wab View, Lincfield

1) The Site.

The works consist of extending an existing shed in the back garden of my house. The main house is a detached, brick built, two storey house, under a tiled roof, circa 1900. The shed is a timber clapboard construction with a slate roof.

2) Design.

The extension, 3m in length, to the north elevation, will match the existing shed. Natural blue slate roof, over soam, tanned clapboard walls on a 3 course brick plinth.
- see drawings attached.

3) Intended use.

The extra space is required for safe storage of four post war, classic motorcycles.

4) Layout.

The layout is detailed in the attached drawings. Access in by existing garden path.
