Subject: Planning Application DM/24/2505 - Protected Species

[REDACTED]
PLANNING APPLICATION : DM/24/2505

Dear Anna Tidey

I hope that you are well.

Following on from and reference to objection letters received; you may well be aware that several protected species are in habitat in the area for the proposed development of the tennis court.

1. Please may I kindly ask to advise on the process the local authority must undertake given this knowledge.
2. Please confirm the local authority be following the 'standing advice' from Natural England seeking their consult given the protected species in habitat?
3. I assume protocol will dictate an environmental impact assessment requirement including an appropriate assessment under the Habitats regulations?

I look forward to your comments.

Many thanks and kind regards
