Good afternoon Joanne,

Thank you for consulting us on the above application. I can confirm that we would have no objections to the proposed change of design. The only thing worth noting is that we originally commented on this application to say that we recommended that reasonable avoidance measures are produced. I can see that some have been included within the applicant's CEMP which has been secured via condition 13. As long as this document is still to be secured via condition 13 we would have no comments to make

Best wishes,

Laura Downs (*she/her*)
