Thank you for your e-mail.

Yes, I am willing to allow more time for you to consider your next steps provided that you are willing to agree to a further extension of time by which to determine the applications - they are currently due to be determined by this Thursday 20th August. Would an extension to Friday 28th August be agreeable with you?

Dear Will

I hope this e-mail finds you well.

Please be advised that I have received detailed comments from Emily Wade regarding the proposal, which are attached for your information.

In view of the concerns raised and recommended further research regarding certain works, we consider that it would be preferable that the current applications are withdrawn with a view to seeking pre-application advice.

In addition to the above, I note that the description of the householder application references returning the pair of semi-detached cottages to a single dwelling. The proposed merging of the 2 dwellings to form one larger dwelling cannot be considered under a householder application and would require a full planning application to be submitted to consider the principle of development. Presently, the Council has no development plan policies in place that specifically restrict the loss of dwellings and therefore is unable to raise an objection in principle, provided that the proposal is not considered to cause material harm. However, policy DPH1 of the Submission Draft District Plan 2021 – 2039 advises in part that ‘the net loss of residential dwellings will not be permitted unless there are specific circumstances that justify the loss.’ The Plan is at examination and currently only carries minimal weight when determining applications. Alternatively, you may be of the view that the proposal would not result in any material changes to the property and would not involve development, in which case I would recommend that an application for a lawful development certificate is submitted to consider the principle of development, prior to any further works being sought.

I hope that the above assists but please get back to me should you have any queries.

Kind regards

Debbie.
