Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	1. Tillia cordata remove new lower branches to existing canopy and remove all dead wood 2. Prunus subhirtella 'Autumnalis' - prune to shape and encourage new growth 3. Chaemcyparis lawsoniana 'Sargentii' - fell to ground. This conifer is multi stemmed and for several years has been exhibiting increased tendencies to separate, and now large gaps are appearing in the centre of the tree. There is now concern that over time this will become an increasing danger to the greenhouse and nearby fence
