### Comments Details

The Town Council supports the proposal and is delighted to see development that will provide more housing without loss of any green belt. However, the Town Council has concerns about the impact that construction may have on existing residents of 119-127 Victoria Gate and requests that protection be provided to these as much as possible.

Comments:	Furthermore, the Town Council is concerned about the lack of parking available for these new properties and the impact this may have on surrounding streets where parking is already limited. The Town Council also requests that if this proposal is approved, the provision of cycle storage be stipulated as a condition for permission.
