Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The traffic should not be directed via Street Lane as there is absolutely no more capacity for traffic, especially during any building works. 35 houses is approx where I am situated in the village which is already a big development. Houses alone are not enough to support this community - we need serious traffic calming solutions and thought to real infrastucture and cast iron guarantees before any money changes hands and any plans are

approved - if they are approved. Also housing should not be for max profit but priority made for existing genuinely local people. And what about the proposed quality of these builds?

Kind regards
