Comments Details

Commenter Type:	Business or other organisation
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I am writing in support of this planning application. The proposed development will deliver significant benefits both for the annual international gathering and for the wider local community. The provision of hard-paved and engineered parking areas will greatly improve safety and traffic management by reducing the need for cars to park on roadside verges along Saint Hill Road, which has been an ongoing issue during large-scale events. In addition, the improved infrastructure will support a wide range of family-friendly community activities, including the Easter Egg Hunt, Bonfire Night, and Christmas events, all of which attract thousands of local residents each year. Importantly, the car park will also be made freely available for use by those attending the neighbouring Rugby Club and Sports Club, further demonstrating a commitment to shared community use.

The addition of permanent facilities, including the marquee pads, washrooms, and backup power supply, will enhance the ability to host well-organised events such as the charity concert, which raises funds for local charities and brings positive social and economic value to the area.

Overall, I believe this application represents a well-considered improvement that balances event needs with long-term community benefit, and I fully support its approval.
