REF: DM25/1185

Dear Sir,

I read with concern, the Council's plan to give permission to a "Padel Court" next to the bowling green in the grounds of St Francis hospital.

Having been a member St Francis BC for a number of years, I know the necessity for quiet concentration required. The noise, disruption and of course increased traffic and parking facilities will be invasive.

Should the court be given planning permission, I would hope that sound screens of a suitable height and increased traffic and parking facilities will be included.

Regards,
